About the Trust

The Summerfield Charitable Trust was established by Ronald Summerfield, a Cheltenham antique dealer, shortly before his death in 1989. The Trustees have discretion as to which charitable uses to apply the funds.

In 2003 £337,171 was distributed in a total of 77 grants, from £500 upwards. A copy of the latest Trust accounts is available upon request.

Charities applying to the Trust must either be based in Gloucestershire or they must be engaged in a project that is of specific benefit to residents of the county.

VIEWED ESPECIALLY FAVOURABLY ARE:

- arts projects
- the needs of those living in rural areas;
- ventures which make a point of using volunteers (and which train volunteers);
- joint appeals from groups working in similar areas, who wish to develop a partnership; and
- those who are promoting excellence in a given field.

PREFERENCE IS GIVEN TO:

- applicants who show clear indications that they have assessed the impact of their projects upon the environment;
- schemes that indicate planning for long-term self-sufficiency;
- projects that demonstrate active involvement with the beneficiaries;

The Trustees prefer to award one-off grants to help fund specific projects, rather than to make payments for revenue items.

Individuals are only very rarely supported, students being more likely to find favour than those with other needs. They must be residents of Gloucestershire.

Trustees request individuals to use a specialist charity to sponsor their application.

Donations are **not given** to:

- medical research;
- private education
- animal welfare appeals
- funding trips abroad

Procedure – The Trustees meet quarterly, usually in January, April, July, and October to consider all applications received prior to the deadline date (5th December, 5th March, 5th June and 5th September).

Applicants should write to me stating in their own words what is required and why.

Please note a Grant Application Cover Sheet should be completed and returned before an application can be submitted.

Applicants are welcome to telephone and discuss applications with me before submission.

It helps if grant seekers say which other trusts they are approaching: we may consult them (or members of our informal panel of advisers) about any applications we receive, unless applicants specifically write to request us not to.

I aim to inform applicants of the Trustees' decisions as soon as possible after their meetings.

All appropriate new applications are acknowledged: stamped addressed envelopes are welcomed. Please note we do not accept faxed or emailed applications.

Introduction

During 2003 the Summerfield Trust distributed £337,171 to a wide variety of good causes. In line with our stated policy these grants were made exclusively to beneficiaries based in Gloucestershire. There is a detailed analysis of the grants in this booklet, which highlights the varying sizes of the grants.

During the year we paid the final tranche of our £75,000 grant to Cinderford Artspace. This has enabled them to refurbish and move into the old Mercury Newspaper building in Cinderford. As a result of the move they have developed a wide range of exciting arts activities, which has led to a significant increase in the number of new members.

For the second year we have made a grant to the Lumbs Educational Foundation, who interviews young people needing financial assistance to further their education. In the light of recent government proposals this service will be increasingly useful, and our grant enables Lumbs to help a larger number of Gloucestershire based students.

We were also pleased to support the salary costs of a Student Community Action Co-ordinator at the University of Gloucestershire. This will enable a proper link between those young people who wish to “volunteer” their time to help the disabled, elderly and disadvantaged within our communities.

Our overall level of grant giving reduced in 2003 from its level in the previous year, reflecting the decline in the value of our equity investments. In recent months there has been an improvement in stock markets and this will hopefully help us to return to higher levels of distribution.

The wide range of applicants creates a demanding level of understanding for the trustees, combined with the ability to decide on the relative merits of different projects in different fields. We have included a brief biography of each trustee, which shows the range of knowledge, and experience, which they bring to the task. The trustees are greatly helped by our team of volunteer advisers, our administrator, Lavinia Sidgwick, and by our secretary Tracey Price. They are always available with advice for applicants who wish to apply

for a grant. We also do spot-check evaluations on grants which we have made in previous years to ensure that they have been properly and effectively utilised.

Finally I must thank Ro Kaye, who retired as trustee after six years, for her commitment and enthusiasm. She brought a real knowledge of educational needs to the Trust as well as lots of common sense. We welcomed Jan Urban-Smith, as a new trustee during the year. She has already shown the intelligence and generosity with her time, which are the hallmarks of the other trustees. I am most grateful to them.
